

# Parasoft Documentation and Resources

## Parasoft Continuous Testing

**SOAtest** automates complete end-to-end testing for business and security-critical transactions.

**Virtualize** simulates the behavior of dependent applications for development or testing.

**Continuous Testing Platform (CTP)** enables you to configure, manage, and deploy realistic test environments to enable continuous testing.

## Parasoft DTP

DTP delivers predictive SDLC analytics for understanding the risk associated with your release candidates. DTP Enterprise Pack is a suite of process intelligence tools for defining how risk associated with the software under development is measured, reported, and addressed.

[DTP 5.4.3 \(includes DTP Enterprise Pack\)](#)
