

Keil

The following Keil compilers are supported:

- [Keil C166 7.0](#)
- [Keil C51 8.x](#)

uVision projects are supported—see [Keil MDK-ARM Support](#) for details. uVision must be closed before testing because the debugger crashes when more than one uVision instance is open.

Keil C166 7.0

- Compiler acronym: kc166_7_0
- Host OS: Windows
- Supported practices: static analysis
- Support level: [Extended](#)

Keil C51 8.x

- Compiler acronym: c51_8
 - Host OS: Windows
 - Supported practices: static analysis
 - Support level: [Extended](#)
-

About Support Levels

- **Extended:** Support has been validated with extended testing and is approved for use in safety-critical software development.
- **Standard:** Support has been validated with standard testing and is approved for use in non-safety critical software development.
