

Configuring JDBC Drivers

This topic explains how to configure any JDBC drivers needed by C++test (e.g., to connect to a database used for parameterized tests).

Sections include:

- [Configuring JDBC Drivers](#)
- [Available JDBC Drivers](#)

Configuring JDBC Drivers

To configure JDBC driver settings:

1. Choose **Parasoft> Preferences** to open the Preferences panel.
2. Select **Available JDBC Drivers** on the left.
3. Add the required drivers to the classpath.

Available JDBC Drivers

The following are download links for common drivers:

Driver	Download Link
Oracle	http://www.oracle.com/technology/software/tech/java/sqlj_jdbc/index.html
MySQL	http://dev.mysql.com/downloads/connector/j/
Windows System DSN	This driver is included with Java.
SQLServer	http://msdn.microsoft.com/data/jdbc/
Sybase	http://www.sybase.com/products/allproductsa-z/softwaredeveloperkit/jconnect
DB2	http://www-01.ibm.com/support/docview.wss?uid=swg21363866
Other	http://www.oracle.com/technetwork/database/features/jdbc/index091264.html#
