

Adding Widgets

This chapter describes how to add a widget to a dashboard. See [Widgets](#) for information about types of widgets, widget settings, and the data they display. Depending on your edition of DTP, you may have access to a limited set of widgets. See [Installation Options](#).

1. Click the add widget button.

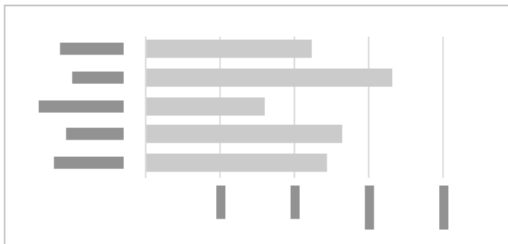

2. Choose a category and type of widget.
3. Configure the widget settings and click **Create** to add your widget. The configuration options vary from widget to widget. See [Widgets](#) for information.

Add Widget

Build Results	Assignees - Top 5 Bar
Code	Assignees - Top 5 Table
Compliance	Authors - Top 5 Bar
Coverage	Authors - Top 5 Table
