

Third-party Acknowledgments

Software from the following vendors have been incorporated into Parasoft DTP and DTP Enterprise Pack:

- [DTP](#)
- [DTP Enterprise Pack](#)

DTP

Parasoft DTP incorporates the following third-party software:

Ace

This software is used under a [BSD License](#).

Ace Diff

This software is used under an [MIT License](#).

AngularJS

This software is used under an [MIT License](#).

AngularUI

The following software is used under an [MIT License](#).

Angular Diff Match Patch

This software is used under an [MIT License](#).

Angular File Upload

This software is used under an [MIT License](#).

Angular Socket

This software is used under an [MIT License](#).

Angular UI Ace

This software is used under an [MIT License](#).

Angular UI Sortable

This software is used under an [MIT License](#).

Ajax.org B.V.

This software is used under a [BSD License](#).

Amphiluke

This software does not require a license.

ANTLR

This software is used under an [ANTLR 2 License](#).

AOP Alliance

This software is used under an LGPL license.

Apache Software Foundation

This software is used under an [Apache License 2.0](#).

Apache Web Services

This software is used under an [Apache License 2.0](#).

ASM

The following software is used under a [BSD license](#).

Aspectj

This software is used under a [Eclipse Public License 1.0](#).

Atlassian Software Systems

This software is used under an [Apache License](#).

Automattic

This software is used under an [MIT License](#).

BeanShell

This software is used under an [LGPL License](#).

Bean Validation API

This software is used under an Apache License.

Benjamin Arthur Lupton

This software is used under a [BSD License](#).

Body Parser

This software is used under an [MIT License](#).

bootstrap

This software is used under an [MIT License](#).

Bouncy Castle

This software is used under an [MIT License](#).

Calendar

This software does not require a license.

canvg

The following software is used under an [MIT License](#).

Codemirror

This software is used under an [MIT License](#).

c3p0

This software is used under an LGPL License.

d3j

This software is used under a BSD License.

Dawid Kurzyniec's Backport of JSR 166

This software is under public domain.

docx4j

This software is used under an Apache license.

dom4j

This software is used under a [BSD License](#).

Ducksboard

This software is used under an [MIT License](#).

ehcache

This software is used under an Apache license.

el-ri

This software is used under an Apache license.

EPFL

This software is used under a [Scala License](#).

ErrorHandler

This software is used under an [MIT License](#).

express

This software is used under an [MIT License](#).

FasterXML

This software is used under an Apache License 2.0.

Font Awesome

This software is used under an [MIT License](#).

Font Awesome (font)

This software is used under an [SIL OFL 1.1 license](#).

forever.js

This software is used under an [MIT License](#).

freemarker

This software is used under a [BSD License](#).

Fusion Charts

This software is used under a commercial license.

FuseSource

This software is used under an Apache License 2.0.

GraphQL

This software is used under an [MIT License](#).

GSON

This software is used under an Apache license.

handlebars

This software is used under an [MIT License](#).

Hibernate

This software is used under an LGPL License.

hk2

This software is used under a [CDDL + GPL License](#).

HyperSQL

This software is used under a [BSD open source license](#).

iText

This software is used under an LGPL/MPL License

iText RTF

This software is used under a [Mozilla Public License](#).

jade

This software is used under an [MIT License](#).

javax inject

This software is used under the following licenses:

- Apache License 2.0
- [CDDL + GPL License](#)

javax annotation

This software is used under a [CDDL + GPL License](#).

javax el

This software is used under a [CDDL + GPL License](#)

javax ws

This software is used under a [Java API for RESTful Web Services license](#).

javassist

This software is used under an LGPL License.

jersey

This software is used under a [CDDL + GPL License](#).

Jawin

This software is used under a [DevelopMentor OpenSource Software License](#).

Jaxen

This software is used under the following license:

<https://github.com/codehaus/jaxen/blob/master/jaxen/LICENSE.txt>

JBoss

This software is used under an LGPL License 2.1.

JGroups

This software is used under an LGPL License 2.1.

JCraft

This software is used under a [BSD License](#).

jdom

The following software is used under an Apache-like open source license.

Jetty

This software is used under an Apache License 2.0/Eclipse Public License 1.0.

JmDNS

This software is used under an Apache License 2.0.

jQuery

This software is used under an [MIT License](#).

JTidy

This software is used under a [JTidy license](#).

jrcs diff

This software is used under an LGPL License.

jrcs rcs

This software is used under an LGPL License.

Jasypt

This software is used under an Apache license.

jacob-project

This software is used under an LGPL License.

jcommon

This software is used under an LGPL License 2.1.

Jettison

The following software is used under an Apache License 2.0.

jfreechart

This software is used under an LGPL License 2.1.

JSF Facelets

This software is used under a [CDDL License 1.0](#).

jQuery treetable

The following software is used under an [MIT License](#).

jQuery Cookie

This software is used under an [MIT License](#).

JSON

This software is used under a [JSON license](#).

JSON2

This software is used under an MIT License.

jsse

This software is used under the [JDK agreement](#).

Kendo UI

This software is used under a commercial license.

Method Override

This software is used under an [MIT License](#).

Manifest Web Design

This software is used under an [MIT License](#).

malihu custom scrollbar plugin

This software is used under an [MIT License](#).

mchange-commons

This software is used under an LGPL license.

MPXJ

This software is used under an Apache License 2.0.

moment.js

This software is used under an [MIT license](#).

multipart form data

This software is used without a license.

ngTagsInput

This software is used under an [MIT License](#).

Node watch

This software is used under an [MIT License](#).

Persist Min

This software is used under an [MIT License](#).

Plexus

This software is used under an [Apache License 2.0](#).

Proxool

This software is used under a [Proxool license](#).

qTip

This software is used under an [MIT License](#).

q

This software is used under an [MIT-like license](#).

quartz

This software is used under an [Apache License 2.0](#).

regex

This software is used under an [Apache License 2.0](#).

RichFaces

This software is used under an [LGPL license](#).

respond

The following software is used under an [MIT/BSD license](#).

ringtail

This software is used under an [MIT License](#).

Script-js

This software is used under an [MIT License](#).

Spring

This software is used under an [Apache License 2.0](#).

Socket.io Client

This software is used under an [MIT License](#).

Swagger

This software is used under an [Apache License 2.0](#).

soap

This software is used under an [Apache license](#).

Scala

This software is used under a [Scala license](#).

serve-favicon

This software is used under an [MIT License](#).

session

This software is used under an [MIT License](#).

serializer

This software is used under an Apache license.

SLF4J

This software is used under an [MIT license](#).

Stax Mapper

This software is used under an LGPL License 2.1.

Stax2 API

This software is used under a [BSD License](#).

SVN Java HL

This software is used under a [Subversion/JavaHL License](#).

sunjce

This software is used under the JRE agreement.

sunpkcs

This software is used under the JRE agreement.

Sun Microsystems

This software is used under the following licenses:

- Apache License
- LGPL License
- CDDL License

tinyMCE

This software is used under an [LGPL License](#).

Timer Abstractions for jQuery

This software is used under a [WTFPL License](#).

Trilead SSH2

This software is used under a [Trilead AG license](#).

UnboundID LDAP SDK for Java

This software is used under an LGPL License.

underscore.js

This software is used under an [MIT license](#).

Woodstox

This software is used under an Apache License 2.0.

WSTX

This software is used under an Apache License 2.0.

WSDL4

This software is used under a [Common Public License 1.0](#).

xercesImpl

This software is used under an [Apache license](#).

xml-apis

This software is used under an [Apache license](#).

XStream

This software is used under a [BSD License](#).

XZ for Java

This software is available under [public domain](#).

Zulu Community Distributions of OpenJDK

This software is available under a [GNU General Public License, version 2, with the Classpath Exception](#)

DTP Enterprise Pack

Parasoft DTP Enterprise Pack incorporates the following third-party software:

aedes

This software is used under an [MIT license](#).

aedes persistence mongodb

This software is used under an [MIT license](#).

angular

This software is used under an [MIT license](#).

angular-animate

This software is used under an [MIT license](#).

angular-messages

This software is used under an [MIT license](#).

angular-resource

This software is used under an [MIT license](#).

angular-route

This software is used under an [MIT license](#).

angular-sanitize

This software is used under an [MIT license](#).

Angular Bootstrap

This software is used under an [MIT License](#).

angular-bootstrap-switch

This software is used under an [Apache 2.0 license](#).

Angular UI Router

This software is used under an [MIT license](#).

Angular UI Validate

This software is used under an [MIT license](#).

angular-utf8-base64

This software is used under an [MIT license](#).

angular-toastr

This software is used under an [MIT license](#).

adm-zip

This software is used under an [MIT license](#).

archiver

This software is used under an [MIT license](#).

async-mqtt

This software is used under an [MIT license](#).

bluebird

This software is used under an [MIT license](#).

body-parser

This software is used under an [MIT license](#).

browser

This software is used under an [MIT license](#).

bootstrap

This software is used under an [MIT license](#).

crypto-js

This software is used under an [MIT license](#).

cookie parser

This software is used under an [MIT license](#).

cors

This software is used under an [MIT license](#).

compression

This software is used under an [MIT license](#).

datejs

This software is used under an [Apache License 2.0](#).

ES6 Promise

This software is used under an [MIT license](#).

express

This software is used under an [MIT license](#).

file-saver

This software is used under an [MIT license](#).

Font Awesome

This software is used under an [MIT License](#).

Font Awesome (font)

This software is used under an [SIL OFL 1.1 license](#).

form-data

This software is used under an [MIT license](#).

fs-extra

This software is used under an [MIT license](#).

handlebars

This software is used under an [MIT License](#).

hjs

This software is used under an [Apache 2.0 license](#).

hint.css

This software is used under a commercial license.

html-entities

This software is used under an [MIT license](#).

http-proxy

This software is used under an [MIT license](#).

ip

This software is used under an [MIT license](#).

i18next

This software is used under an [MIT license](#).

i18next-browser-languagedetector

This software is used under an [MIT license](#).

i18next-express-middleware

This software is used under an [MIT license](#).

i18next-node-fs-backend

This software is used under an [MIT license](#).

i18next-xhr-backend

This software is used under an [MIT license](#).

jQuery

This software is used under an [MIT license](#).

jQuery-UI

This software is used under an [MIT license](#).

js-cookie

This software is used under an [MIT license](#).

kendo-ui

This software is used under the Telerik EULA.

lodash

This software is used under an [MIT license](#).

log4js

This software is used under an [Apache 2.0 license](#).

malihu-custom-scrollbar-plugin

This software is used under an [MIT license](#).

mongoose

This software is used under an [MIT license](#).

mongoose-unique-validator

This software is used under an MIT license.

mqtt

This software is used under an [MIT license](#).

mqtt-regex

This software is used under an [MIT license](#).

moment.js

This software is used under an [MIT license](#).

MongoDB Redistributable

This software is used under a [GNU AGPL v3.0 license](#).

mustache.js

This software is used under an [MIT license](#).

mustache.js

This software is used under an [MIT license](#).

node.js

This software is used under an [Apache 2.0 license](#).

node-rest-client

This software is used under an [MIT license](#).

ng-i18next

This software is used under an [MIT license](#).

nodemailer

This software is used under an [MIT license](#)

nodemailer-smtp-transport

This software is used under an [MIT license](#)

ng-file-upload

This software is used under an [Apache 2.0 license](#).

nopt

This software is used under an [ISC license](#).

node-red

This software is used under an [Apache 2.0 license](#).

node-cache mpneuried

This software is used under an [MIT license](#).

normalize.css

This software is used under an [MIT license](#).

node-uuid

This software is used under an [MIT license](#).

node-rsa

This software is used under an [MIT license](#).

node-soap

This software is used under an [MIT license](#).

ng-onload

This software is used under an [MIT license](#).

ng-table

This software is used under an [ESVIT license](#).

q

This software is used under an [MIT-like license](#).

semver

This software is used under a [Creative Common license](#).

SheetJS

This software is used under an [Apache 2.0 license](#).

Socket.io Client

This software is used under an [MIT License](#).

swagger-node-express

This software is used under an [Apache 2.0 license](#).

Socket.io

This software is used under an [MIT License](#).

tmp

This software is used under an [MIT license](#).

tmp-promise

This software is used under an [MIT license](#).

validator-js

This software is used under an [MIT license](#).

xml2js

This software is used under an [MIT license](#).

xss

This software is used under an [MIT license](#).
