

# Updating a File or File Properties

To replace an existing Marketplace file, modify its properties (description, image, tags, attributes, etc.), or remove it from Marketplace:

1. Expand that file's marketplace listing.
2. Click **Modify**.

**DataRepositoryCRUD-1.0.1**

This easy-to-use custom tool allows for dynamic manipulation of data within a Data Repository following the standard CRUD model (Create, Read, Update, Delete). A README and examples are included in the compressed ZIP file.
